

PMRExp 2024

Leading European Trade Fair
for Secure Communication

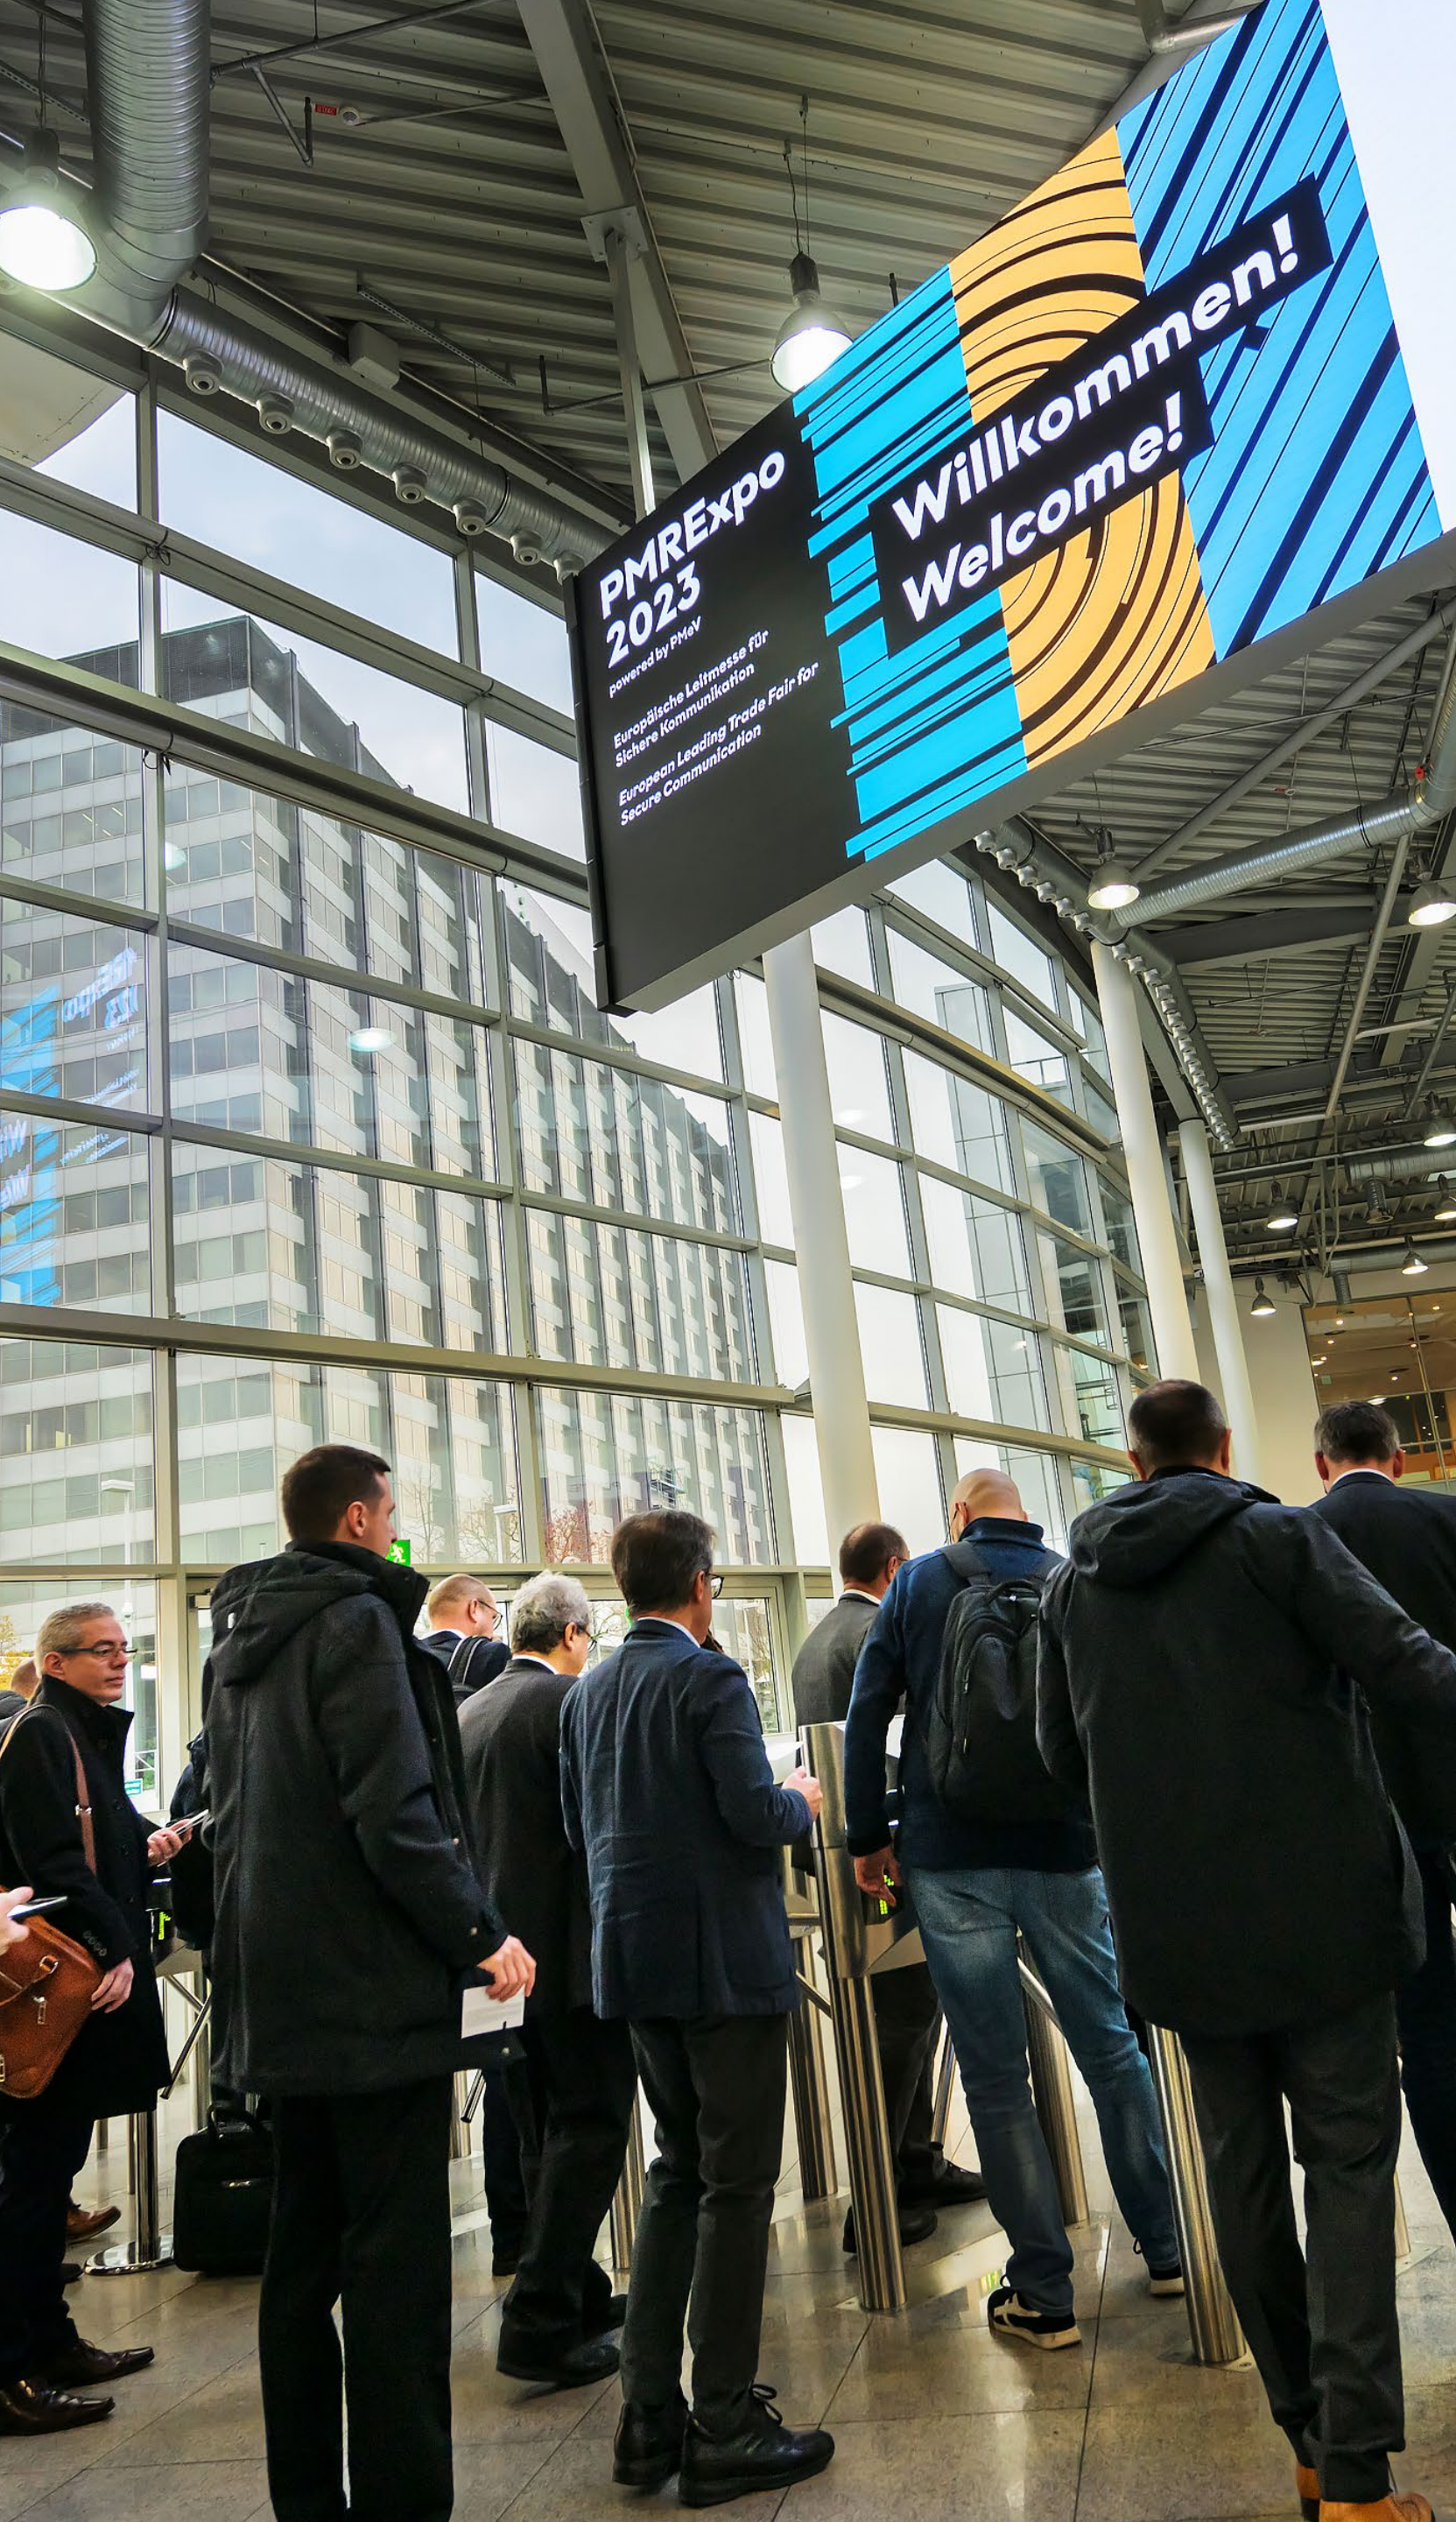

26 – 28 November 2024

www.pmrexpo.com

PMRExp

Top event for security-critical communication

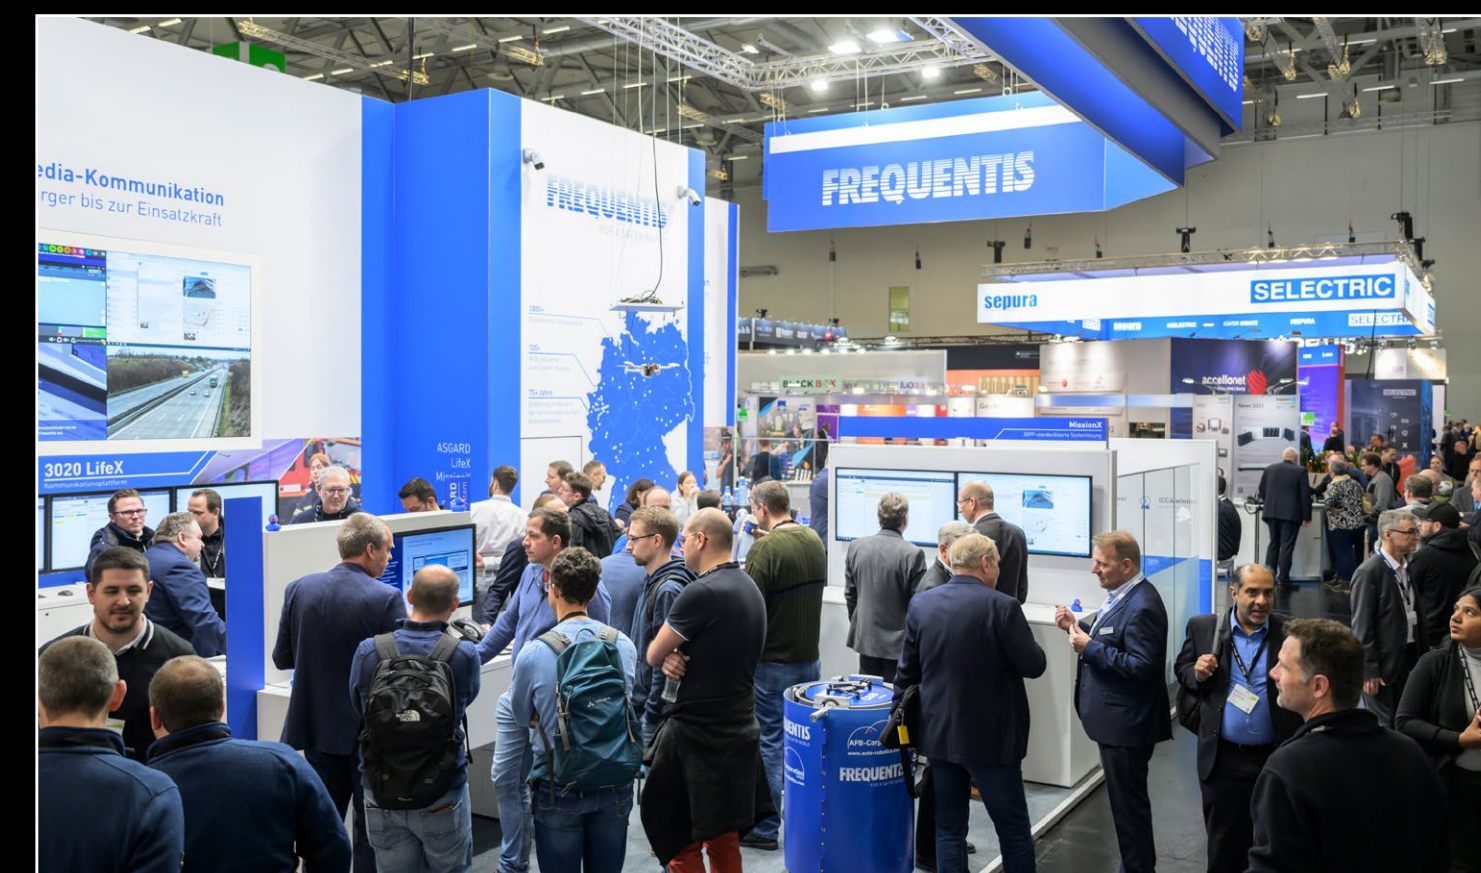

As the Leading European Trade Fair for Secure Communications, PMRExpo offers a **unique platform for solutions and networking in the field of mission- and business-critical secure communication for emergency services (BOS), critical infrastructures (KRITIS) and industry.** The PMRExpo Summit, taking place parallel, trusts in expert knowledge and practical insights that ensure an exclusive transfer of knowledge.

Since 2023, Koelnmesse, as a new event partner under the conceptual sponsorship of the **PMeV – Network for Secure Communication**, ensures an incomparable trade fair experience with the most modern infrastructure and a variety of spaces for conferences, congresses and seminars with the PMRExpo.

Use the opportunity to establish direct contact with important buyers and decision makers from the industry and to reach a broad international public.

Increase your visibility in the industry!

“ From my perspective this was **the most outstanding trade fair of recent years**. It was focused, but at the same time of **exceptional quality**. Especially worth mentioning is the inclusion of the idea of **inner-European solidarity**.” ”

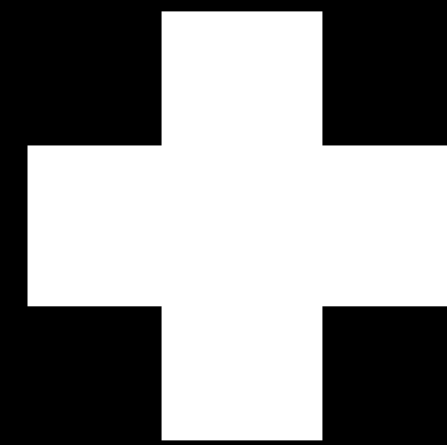

Hotspot for mission-critical secure communication

Expo

The entire industry meets here. Well-known national and international exhibitors present their products, solutions and current innovations from the field of Secure Communication and professional mobile radio.

Summit

The three-day PMRExpo Summit offers a diverse program of the highest quality with lectures, discussions and interactive contributions to current themes like narrow and broadband networks, control centres, 5G and 5G campus networks as well as cyber security in the context of mission- and business-critical Secure Communication.

Hackathon

Think out of the box! The Hackathon brings together young visionaries from various areas, such as programming, design and business development in teams. With the support of exhibitors, they develop and present innovative solutions for the industry.

Connecting Area

The focus lies on networking, product and technology presentations as well as informative trade lectures. In addition to this, the Connecting Area is the hotspot for start-ups and trade media, which present themselves here to a trade public.
